Frontier Communications donates 750 Chromebooks to Oxnard High School District

Oxnard Union High School District

OXNARD, Calif. -- Oxnard Union High School District received a generous donation of 750 Chromebook laptops from Frontier Communications on Friday.

The donation was to help students and parents who are currently lacking Internet-capable devices at home.

The district is handing out the Chromebooks to all parents that qualify.

The district says the parents will own the laptops and will be encouraged to have their kids use them to participate in class as requested by the school.

Frontier Communication and the California Emerging Technology Fund chose Oxnard Union High School District based on its attendance, grade level, income and location of the school within the area covered by Frontier Communications.
